PROFESSIONAL SUMMARY

MCA graduate and AI/ML & Backend Developer specializing in Generative AI applications: RAG pipelines, LLM integration, vector search and FastAPI services. Built and deployed a production multilingual RAG chatbot live on the official GBPIET website, and a full-stack AI hiring assistant. Seeking Generative AI Engineer / AI-ML Engineer roles and internships.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript

Generative AI & NLP: LLMs, RAG, LangChain, Prompt Engineering, Groq API, NLP, Hybrid Search

Vector Databases: Qdrant, FAISS

Backend: FastAPI, Flask, REST APIs, SQLAlchemy, Alembic, Request Validation, Modular Architecture

Machine Learning & Data: Scikit-learn, Pandas, NumPy, Feature Engineering, Data Analysis

Databases: PostgreSQL, MongoDB, MySQL

Frontend, DevOps & Tools: React.js, Vite, Docker, Git, GitHub, CI/CD, Vercel, Hugging Face Spaces, Render

AI Developer Tools: Claude Code, GitHub Copilot, OpenAI Codex

PROJECTS

Multilingual RAG Chatbot for GBPIET Website | Python, FastAPI, LangChain, Qdrant, Groq API, React.js, PostgreSQL

Live: gbpiet.ac.in | Code: github.com/phartyaldiksha05-ux/Multilingual-college-chatbot

- Developed and deployed a full-stack production RAG chatbot live on the official GBPIET website, serving 300+ students in 4 languages (Hindi, English, Garhwali, Kumauni).
- Implemented Qdrant hybrid dense + sparse vector search over 100+ preprocessed web pages to improve retrieval relevance and answer accuracy.
- Engineered language-specific prompt templates with LangChain and integrated Groq API for fast LLM inference.
- Built a modular FastAPI backend with structured routing and a React.js frontend; deployed on Hugging Face Spaces, Vercel and Neon (PostgreSQL) with an end-to-end CI/CD pipeline.

Meetwise AI: AI-Powered HR Interview Assistant | React, FastAPI, PostgreSQL, SQLAlchemy, Docker

Live: hr-interview-assistant-six.vercel.app | Code: github.com/phartyaldiksha05-ux/hr-interview-assistant

- Built a full-stack hiring workspace for candidate management, PDF resume upload and information extraction, and interview scheduling with a live HR dashboard.
- Integrated LLMs to generate structured candidate briefings, role-specific, technical and behavioral interview questions, and post-interview summaries from HR feedback.
- Implemented scheduled interview reminders with APScheduler, database migrations with Alembic, and a Dockerized PostgreSQL setup with a layered backend (API, services, models, schemas).

EXPERIENCE

Emerging Technologies Intern, Edunet Foundation (AICTE & IBM SkillsBuild) May 2026 – Jun 2026

- Completed a 4-week internship in Agentic AI, Cyber Security and Quantum Computing using IBM SkillsBuild and IBM Cloud; developed an AI and Cloud Computing project applying industry-standard tools and workflows.

Strategy, Consulting & Research Intern (Team Lead), UptoSkills (Remote) Jan 2026 – May 2026

- Led a 4-member team to deliver 3+ consulting and market analysis reports on schedule across 5+ industry sectors; standardized documentation templates, reducing revision cycles.

Backend Development Intern, Prodesk IT & Engineering Services Jun 2025 – Jul 2025

- Built and tested 5+ REST API endpoints in Python with request validation, structured routing and modular data processing; received a Certificate of Appreciation for code quality and on-time delivery.

EDUCATION

Master of Computer Applications (MCA), GBPIET, Pauri Garhwal, Uttarakhand | CGPA: 8.28 2024 – 2026

Bachelor of Science (BSc), Kumaun University, Nainital | CGPA: 6.07 2021 – 2024

CERTIFICATIONS & ACHIEVEMENTS

- Certificate of Appreciation, GBPIET (Dept. of CSA): recognized for developing the institute's AI chatbot in Hindi, English, Garhwali and Kumauni (May 2026)
- Certificate of Participation, ViCoDathon 2026 by AB Talks: India's AI Vibe Coding Hackathon (Aug 2026)
- Introduction to Artificial Intelligence, Infosys Springboard (Jun 2025)
